

Degree Programs Taught in English

(Programs where degrees can be obtained by taking subjects taught in English, and programs intended for preparing students for global career paths)

Faculty/Graduate school	Program	Department	Course/Program	Month of admission	Standard no. of students admitted	Contents
Graduate School of Law	Master's program	Law and Politics	KIMAP in Global Business Law	April or October	7	<p>KIMAP in Global Business Law is an LL.M. program of global business law which requires 1.5-2 years to complete. The program has the following characteristics. First, all courses are offered in English. By choosing from a wide selection of courses in global business law, students can acquire a solid foundation in business law in English. Students can receive support on their English language development throughout the program. Second, students can take interdisciplinary courses offered by the Graduate School of Economics and Business Administration. In addition to master's degree in Law, students can obtain a certificate and an open badge confirming their achievement in the selected field such as "Sustainable Development and Public Policy" by satisfying the requirements for completing courses in specific fields. Third, students can join internships in domestic/overseas law firms and other institutions (elective). Fourth, students are required to write their master's theses in English.</p> <p>This program started in April 2023.</p> <p>Details can be found at http://www.law.kobe-u.ac.jp/KIMAP/</p>
